

Fall into STEM with PNNL

Wednesday, October 14th

9:30 AM – 11:00 AM PST

A virtual event to provide a unique experience for undergraduate students (18+) to learn more about the DOE, PNNL, STEM careers, and internships.

- Learn about our Science Undergraduate Laboratory Internship (SULI) program and our Community College Internships (CCI) program
- Engage with two of PNNL's science and engineering staff who will share their research
- Follow-up! Details will be provided for a working session on **Wednesday, October 21, at 12 PM PST** where you can ask questions and be guided through the application process for internships next summer

Join Our Virtual Event!

Advance registration required.

After registering, we will email you a short questionnaire. Please complete it, so we may learn a little more about you!
