

## Campus Safety, Health, and Security Committee Agenda

**Date:** December 19, 2024

**Members  
Attending:**

**Guests:** None

### Agenda Items:

1. Introduction
2. Review of Inspection Reports
  - None this month
3. Review of Accident/Investigation reports
  - No significant reports to review.
  - Winter is here, and reports of slipping on ice – particularly in Pullman – are on the rise. Watch for slippery conditions, dress appropriately.
4. Issues/Questions/Concerns previously discussed/unresolved
  - a. Lab inspections
    - Deferred until more lab representatives are present
  - b. Unlevel sidewalks – No new information
  - c. Potholes– No new information
  - d. Signage– No new information
  - e. Lighting– No new information
  - f. Building hours
    - i. Campus will be under reduced operations Dec 23-Jan 2. Exterior doors will be locked, limited staff have access. Security will be on campus. Buildings will be open 7AM-6PM Jan 2-3, return to normal hours Jan 6.
    - ii. It is currently being considered to close most buildings earlier on evenings and weekends, allowing study access to CIC only in order to avoid having students isolated alone in buildings that are open. This is consistent with what typically occurs on other WSU campuses. There are multiple ways this could be managed, more information will be available as the idea is considered.
  - g. A number of deer have been seen on campus, especially in the evening hours, on the slope near Wine Science and also near the Grounds shop. Watch out for them when driving, and don't approach them. Contact security if there's an issue or concern.
5. New Issues/Questions/Concerns
  - No new issues

**Meeting adjourned at 10:10**
